

The Purchasing & Licensing Guide

DECIDING WHICH VERSION OF SAWMILL

Profiles are available in the following pack sizes: 1, 5, 10, 25, 50, 75, 100, 500, and 1000.

HOW MANY PROFILES DO YOU NEED

Profiles create reports, and each Profile will create a report from a single log format. Once a report is produced it can be run on demand, or scheduled to run on a regular basis. If you need to produce 10 scheduled reports you will need 10 Profiles as a minimum. After deciding how many Profiles you need select the next higher pack size.

SOME KEY LICENSING QUESTIONS:

IS SAWMILL A PERPETUAL LICENSE OR AN ANNUAL LICENSE?

End users: a Sawmill License is a single perpetual license fee as displayed in our website www.sawmill.co.uk.
Service Providers: (i.e. anyone processing logs belonging to another party) are offered either perpetual licenses or annual subscription licenses on special terms

ARE THE NUMBER OF USERS LICENSED?

No, Sawmill users are not licensed. The number of users can be unlimited.

ARE LOG FILE SIZES LICENSED?

No, provided the Sawmill server is correctly specified then log data can be any size

THE SAWMILL END USER LICENSE (EULA)

As stated in the EULA (copy available on request) a Sawmill license is a single copy license. The software must not be copied, loaned or provided to another party under any circumstances whatsoever. An end user may only use the product to analyse his own log files, producing reports for his own use. A Service Provider may use the product to analyse logs belonging to other organisations as a service to them
